

YOUR SUPERIOR SOLUTION

Discover THE Solution for Edging Glass

The **SUPERIOR** line of wheels is designed for edging monolithic and laminated glass. The unique "S" pattern on the cutting band allows for the wheel to have a different point of contact while rotating – never touching the surface of the glass at just one place on the wheel. **SUPERIOR** wheels are available for use on a wide variety of machinery including the **KODIAK®**, our NEW line of glass edging machines exclusively from **HHH Equipment Resources**, as well as Bovone, Bavelloni, Lattuada, Schiatti and more.
